

POLITICAL.

From the Augusta Age.

EXPLOSION OF WHIGGERY!

"The party of 'odds and ends,' the party who rallied in the last campaign, as they said themselves, 'without a why or a wherefore,' the party, who really having no principles, had then, at least, the grace to admit that they had none; the Whig party, in short; have at length exploded.

We have devoted no small part of our columns, this week, to the letters and manifestoes with which this new political revolution has been so prolific.

Among them may be found the letters of Messrs. Crittenden and Ewing, explaining the reasons for their resignations of their seats in the Cabinet; the letters of Mr. Webster, explaining the reasons for holding on to his seat, for the present, at least; the address of the Federal members of Congress to their constituents; and finally, the call of the N. Y. Whig State Central Committee for a State Convention, to give weight to the Federal attack upon the President.

These papers develop the points upon which Mr. Tyler is to be personally and politically assailed by the Federal party. Personally, he is to be charged with duplicity, inconsistency and treachery. Politically, his constitutional prerogatives are to be held up to odium, and the old clamor against, "Executive tyranny," is to be let loose upon him, with renewed and augmented vigor.

Under all the circumstances, attending this movement, the Federal party displays, it must be confessed, no small power of cohesion. It wheels off from the President into the attitude of opposition, with apparently almost unbroken columns. It avails Mr. Tyler nothing, that in obvious consistency required him to do. It avails him nothing, that the charge of duplicity made against him, rests upon no better authority than that of Mr. Ewing, a man of notoriously depraved and infamous character, and whose statements are not only professedly in violation of the most sacred confidence, but marked with the grossest inconsistencies and the most direct repugnance, in vital points, to well known facts. All this avails Mr. Tyler nothing. With scarcely an exception, the authoritative organs of Federalism, raise the standard of bitter and uncompromising hostility to him and his, and at all points, threaten a war, fierce, unrelenting, and vindictive.

We suspect, however, that there will prove in the end, to be less union in the rank and file, than there now appears among the exasperated leaders of Federalism. Moderate men everywhere will hesitate to join this new standard of ultra and radical Whiggery, and which will obtain still less favor, as being apparently set up for the special benefit of that obnoxious politician, Henry Clay. And there cannot fail to be added a still further element of disunion, in the instinct of the recipients of Executive favor, to adhere to the power upon which their official existence depends.

Be the decision however, greater or less; the party which elected Gen. Harrison is dissolved. It no longer exists under its old organization. New points of departure are to be taken, by its different elements. It has endured but six short months of united existence, and those marked with ill concealed jealousies, and scarcely smothered feuds.

As in the animal economy, those creatures which are the shortest lived, have also the greatest vivacity of sensation and action, so looking back to the now terminated six months' reign of Federalism, it is wonderful to contemplate how much mischief has been done, in that short time. Without misgiving what is yet so fresh, it is sufficient to point to the unconstitutional extra session of Congress, the odious land distribution, the profligate grants of money, the reckless extravagance, the creation of a new national debt, the oppressive taxes and the ferocious proscriptions, which have marked this disastrous era. Into how short a space, have all these bad acts, either one of which would distinguish an epoch of evil, been compressed!

THE NEW CABINET.—The President was as prompt to accept the resignation of the retiring members as they were to offer it. Equally prompt was he in appointing their successors. The N. Y. Evening Post says of the new nominees—

Walter Forward who is nominated to the post of Secretary of the Treasury, is a western Pennsylvania lawyer, a native of one of the New England States, who went early in life to Pittsburgh, and rose to eminence at the bar. He is known not to agree with the Clay party on the banking question. On the other hand, he is a high-tariff man, and strongly attached to the mischievous protective system.

Abel P. Upshur, who is named for the department of the Navy, is an ingenious Virginian, fond of speculating and refining. He has written some essays upon the abolition question, in which, we believe, he maintained the extreme Southern doctrine.

John McLean of Ohio, a Judge of the Supreme Court, formerly Post Master General, and now proposed by Mr. Tyler for the War Department, is an ambitious man, extremely fond of political manoeuvres, with a good deal of aptitude for business.

Hugh R. Legare, whom Mr. Tyler has selected to fill the place of Attorney General, holds in politics much the same position in regard to parties in this country, that the doctrinaires hold in France. He is eloquent and erudite, perhaps not very practical. His brilliant literary reputation will make his accession to the cabinet ornamental at least.

Of Charles A. Wickliffe, who it is supposed will be nominated to the place of Postmaster General, we can say little. He belongs to a family of Kentuckians whose dislike of Mr. Clay is well known.

BIENNIAL ELECTIONS, &c.—The vote of the State will be found, we think, decidedly against Biennial Elections and sessions of the Legislature. The proposition to fix the number of representatives at 151, has also, we think, been carried in; and upon the third question, of course the vote has been "diminish" the number of representatives.

From the Augusta Age.

The Election and the Federal Journal.

The Federal Journal of last week, contained an article in reference to the late election, which cannot be justified by any latitude of indulgence to a defeated party. It says—

"The loco focos have resorted to the lowest description of electioneering, such as ought to disgrace any party; such as the expenses of Gen. Harrison's funeral, the allowance to his widow, the duty on tea and coffee, which after all has not been imposed. Their papers were filled with the grossest and most miserable falsehoods about duties and exemptions from duty in the Revenue Bill, as was about everything else. Their great aim was to operate upon ignorance and prejudice, by deception and falsehood."

And again:—

"The loco focos have brought out every man they had or could get by fair means or foul, by honest persuasion, deception or lying."

And again:—

"Not an intelligent man can anywhere be found who has abandoned the Whig party, where the cause is not readily seen in some personal pique, or sinister motive."

And again, among the consequences of Democratic success, it sets down the following:—

"Our most enterprising men will emigrate to other States, as they do in New Hampshire, leaving a residuum of irremediable loco focos, to feed it over the ascendant in hopeless folly, poverty and delusion."

And again:—

"The blow, however, is not so great, but we may recover from it, and reason and common sense have their proper influence."

The article abounds in sentiments and language of the same description.

In the extract made from it, the italicising is our own.

It is unnecessary to say, that the discreet friends of the Journal do not relish such whole sale and gratuitous slander.

The late election was notoriously an honest and fairer election, than the State has witnessed for years. It was marked by less excitement and fewer appeals to passion. It turned more upon the merit of political issues. The vote taken was a more spontaneous and natural vote. All this notorious, and we are well justified in characterizing the remarks of the Journal, as an audacious insult to an entire community.

RETURNS OF VOTES.

The returns of votes for Governor and Senators, must be made to the office of Secretary of State, thirty days at least before the first Wednesday of January. It is the duty of town and plantation officers to "cause" the returns "to be delivered," within this time.

Our friends in towns and plantations, which have given Democratic majorities, should see that these returns are made in season.

More particularly should there be vigilance in this respect, in closely balanced Senatorial districts.—Age.

Bets—no, Mr. Botts, bet \$15,000 on the President's course in regard to the bank bill, and won the money. Now as sporting gentlemen of the House of Representatives, sometimes resort to extraordinary means to secure their bets, no, bets,—would it be impertinent to inquire whether Mr. B. did not give the right direction to his Coffee House letter, to "head Captain Tyler" and win his bet? We merely ask for information.—Albany Argus.

Lord Lyndhurst's opinion on the McLeod case.—The New York Sun says, a letter received from a gentleman in England, whose statement is high authority, says that that able jurist, Lord Lyndhurst, does not hesitate to declare his opinion that the State of New York is right in persisting to try McLeod in a court of justice.

The reason why the distinguished jurist differs so widely from the rest of his countrymen probably is that he has taken the trouble to acquaint himself with the facts of the case, which they have not.—Times.

FROM THE FRONTIER.

Sixty-five kegs of powder were stolen from the magazine near Lockport on Friday night last. Gen. Scott was at Leviston last week, and superintending the mounting of the cannon on Fort Niagara.

The Niagara [Upper Canada] Chronicle of the 16th, says that another attempt, partially successful, to destroy one of the locks in the Welland Canal, at Allanburg, was made on the night of the 9th inst.

POSTSCRIPT!!!

The Buffalo Commercial Advertiser received last evening, contains the following intelligence:—The British armed steamships Minos and Toronto are moored in the river between Navy Island and the Canadian shore. We learn that last night some persons unknown, got a cannon on the island and fired several times at the vessels, with what effect we are unable to say.

WARLIKE. We learn that the citizens of Lewiston and Niagara, turned out at the request of Gen. Scott, and mounted the guns on Fort Niagara, yesterday afternoon.—Boston Times.

THE EXPLORING EXPEDITION.

We find the following information in the last foreign correspondent of the Journal of Commerce—

"Her Majesty's ships Erebus and Terror, Captains Ross and Crozier, had returned from a voyage of six months to the antarctic pole, which is described as being of most complete success. They were unable to reach the exact magnetic pole, but succeeded in fixing it about 100 distant from them. On the 10th of January they discovered land, and took possession of it on the 12th, in the name of the Queen, latitude 71 56 S., longitude 171 17 E. On the 28th in lat. 77 31 S. and long. 167 60 E. they saw a large volcano, which was appropriately named after one of the ships; Mount Erebus. Another volcano, in the neighborhood, they dubbed Mount Terror. The first was emitting dense clouds of smoke. On the 2d Feb. they reached lat. 73 4 S. and long. 173 12 W. when the ships were stopped by an immense barrier of ice 150 feet high—running 300 miles eastward. This expedition, says the Hobart paper, has penetrated four degrees further south than that of the Americans or French. The positions marked by the French were found to be correct, but some extraordinary mistake appears to have affected the American calculations, for the Erebus and Terror sailed over the positions marked on their chart as land, which is upwards of 300 miles from the latitude and longitude in which the Americans laid it down."

McLean's Trial.—This momentous case is to come on next Monday. A jury of 48 men have been empanelled. They consist of 36 farmers, 10 mechanics, 1 physician, and 1 of the equivocal species denominated gentlemen. The New York Express states that the lawyers on both sides are confident of winning. This we believe is commonly the case. Willis Hall, in behalf of the State, affirms that he has evidence sufficient to convict the prisoner; and Joshua Spencer, the prisoner's counsel, is confident of being able to prove an alibi.—Times.

NAVAL PREPARATIONS.—Orders have been received at New York to fit out the Independence razee and the sloop-of-war Falmouth; at Gosport to get the frigate N. York in immediate readiness for launching. We understand that orders have been sent to every Navy Yard along our coast urging like preparations.

UNITED STATES BANK BUILDING, IN PHILADELPHIA.—The extinction of the United States Bank, leaves that magnificent edifice in the hands of the assignees, as a part of its available property. To what use it will now revert, is a matter of conjecture. This splendid pile was commenced in 1819. It was five years in building.—The original expense was \$500,000 but when the old bank charter expired it was sold to the present institution for \$300,000. The building is purely white marble, and both inside and out, scarcely any wood is to be seen.

A man who sat on a bridge with his feet in the water, was asked the reason why he did so when he replied, "I am to sing bass to-morrow, and am now endeavoring to take cold in order to prepare my voice."

The Portsmouth Gazette says—"There is a female in this place who was born black, but has since changed, and is now as white and handsome as any lady in Portsmouth."

The income of the Pope of Rome is \$1,500,000. The priests subject to his control and ready to do his bidding are about one million.

The Journal of Commerce says Great Britain has now in commission two hundred and eight six naval vessels, of which fifty-seven are steamers. Forty-six of these steamers and nineteen of the other vessels have no armament on board.—The number of guns at present carried by the vessels in commission is four thousand six hundred and ninety.

A Southern member of Congress said he had made two hundred and ninety seven speeches in favor of his party during the late campaign, and went to Congress spitting blood in consequence.

Mr. Graham, of the Boundary Exploring Expedition, has written to Daniel Webster, that the Expedition has not been at all molested and that the only excitement about it he has seen, has been in the Provincial papers!

Mr. Stevens, says that a beverage like coffee is made in Central America by roasting corn, grinding it, &c. exactly in the same way as we prepare the coffee berry. It is quite palatable, and an excellent cure for diarrhoea.

The Charlotte (N. C.) Journal states that a rich vein of gold has been discovered near that place. The vein is about one foot, and some of the ore taken from it is said to be worth between two and three thousand dollars per bushel.

Married, on Monday, the 19th ult. at Dilton Chapelry, England, John Vincent, aged 86, to Mary Bodman, aged 83. The old lady laughed heartily when the minister read the part of the service, "thy children shall be like olive branches round thy table."

A NATURAL REMEDY.

Suited to our constitution, and competent to the cure of every curable disease, will be found in

Wright's Indian Vegetable PILLS.

Of the North American College of Health.

These extraordinary Pills are composed of Plants which grow spontaneously on our own soil; and are therefore, better suited to our constitution than medicines extracted from foreign drugs however compounded; and are founded upon the principle that the human body is in truth

Subject to but one DISEASE,

viz: corrupt humors, and that said medicine cures this disease

NATURAL PRINCIPLES.

by cleansing and purifying the body; it will be manifest that if the constitution be not entirely exhausted--a persevering use of these pills, according to the directions, will certainly drive disease of every name from the body.

THE INDIAN VEGETABLE PILLS

will be found one of the best, if not the very best medicine in the world for carrying out this

GRAND PURIFYING PRINCIPLE,

because they expel from the body all noxious and corrupt humors, and universal satisfaction or permanent cure is guaranteed.

GIVE EASE AND PLEASURE.

disease of every name is rapidly driven from the body.

The above named INDIAN VEGETABLE PILLS, have been three years before the American public; and we can now say without fear of contradiction, that of all the various medicines which have heretofore been popular, none has given such universal satisfaction or permanent cure as the Indian Vegetable Pills.

It is not intended that this medicine is a cure for all Diseases to which the human system is liable.

Many efforts have been made to compound a Medicine which would cure all Diseases, but have failed. These Diseases were named, and with the power of these Pills and a sure cure or relief is warranted.

THE LION OF THE DAY.

THE OLD DUTCH OR GERMAN VEGETABLE PILLS.

TO the Citizens of the United States and the Canadas is respectfully submitted this Directory to the means for regaining that which has been partially, and in some instances, totally lost.

What blessing should be prized above that of health, and who knows better how to prize the blessing, than those who have been deprived of it? It is an old adage, (and one which contains a wise injunction,) "a time of peace, prepare for war." We should in time of health prepare for the attacks of that evilly looking long, Disease. It would be wisdom to observe its movements, to see well the form in which he approaches, and then to meet him with those means which are calculated to effect his overthrow. These means are not before this enlightened and intelligent community. They are accessible to all, as well as the rich, and I trust that those who regard the Constitution of man as one of the finest specimens of Divine workmanship, and the laws by which that system is governed and directed, as originating in no other than in the courts of Heaven, will so far obey the injunctions of the latter as to provide the best aid for the former.

It is with the most flattering recommendations, subscribed by eminent Medical gentlemen, not only in this Country, but also in Europe; that I offer this valuable Medicine to this American People.

Time and I have opportunity for a fair and impartial trial have placed the Lion of the Day beyond the reach of imposition, Humbug, Quackery, &c.

This Pill is composed of extracts from nine parts of the vegetable kingdom, (being entirely free from any drug of a deleterious nature,) and adapted particularly to the cleansing of the stomach, blood, and the various excretions of the Human system, Bilious Fevers, and Cholera, Fever and Ague, Jaundice, Gravel, Rheumatism, Headache, Constipation, Asthma, and Liver Complaint have been cured, by using these Pills according to the directions accompanying each box.

It is not intended that this medicine is a cure for all Diseases to which the human system is liable.

Many efforts have been made to compound a Medicine which would cure all Diseases, but have failed. These Diseases were named, and with the power of these Pills and a sure cure or relief is warranted.
